

# January 2015 Questionnaire Business Survey

Respondent Reference Number	Postcode	Age	Gender	Response
001/JAN15	TA5 2HL	20 - 60	Female	Just like with new housing new businesses need to provide parking if people are coming to the village just for the business e.g. Brown's Hair Salon
002/JAN15	TA5 2RL	20 - 60	Female	It would enhance the village to encourage rural businesses
004JAN15		Over 60	N/A	Good ideas
005JAN15	TA5 2RJ	20 - 60		Businesses are the lifeblood of the local community, everything should be done to encourage them.
006JAN15	TA5 2JY	20 - 60	Male	What sort of small businesses? Do local IT and Transport networks have capacity?
007JAN15		20 - 60	Female	Yes - this would increase prosperity of area
008JAN15	TA5 2JT	20 - 60	Male	Who is doing the suggesting here? Me/You/EU?
009JAN15	TA5 2HH	Over 60	Female	That would be good for Cannington
010JAN15	TA5 2LY	Over 60	Female	Great so see so many business in the village and so pleased the Spar will take on the PO when Mike Harding retires
011JAN15	TA5 2NW	20 - 60	Male	I'm not sure how the bypass will affect business in the village, if anything has been done to safeguard what we already have, I think we should do what we can. This could mean discussing with EDG/FPC, updating local signage, considering the road layout on the other side of Rodway Hill so that limited traffic could flow through the village? I'm not sure that we should get rid of all HPC traffic as this might have a negative affect on the village.
012JAN15	TA5	Over 60	Male	We need to help existing businesses prosper and encourage new small businesses to the village. More car parking would help.
013JAN15	TA5 2LX	Over 60	N/A	We hope that parking facilities would go side by side with these policies
014JAN15	TA5 2HE	Over 60	Male	Develop existing Woolens site!( <i>All polices are ticked</i> )

017/JAN15	TA5 2HW	20 - 60	Male	Good idea(s). As a local business owner though I have not been approached. New businesses will need secure storage & yards at affordable rates - these do not exist.
018/JAN15	TA5 2HP	Over 60	Female	Not that much choice for business development until EDF are out of the area & roads. Yeo Valley already have their future plans in hand. Yes definitely encourage small businesses.
019/JAN15	TA5 2QH	Over 60	Male	These could be beneficial to residents of Cannington but could increase traffic underlining the need for more parking facilities.
020/JAN15	TA5 2JT	20 - 60	Female	We need to support our local business so that we don't loose them and they continue to benefit everyone & keep us firmly on the map. This Should include Cannington College & Brymore School
021/JAN15	TA5 2HD	Over 60	Male	With the establishment of EDF in the centre of our community ( a massive organisation) I think we should be very cautious about future business expansion until we see what happens with EDF.
022/JAN15	TA5 2LU	Over 60	Male	Try to encourage agricultural ??? To come to the village maintain
023/JAN15	TA5 2HG	Over 60		We need a more attainable doctors clinic, plus more parking on site, parking in the road is a nightmare for people living in the vicinity (at Mill Lane)
024/JAN15	TA5 2RU	Over 60		I agree with the above proposals
025/JAN15	TA5 2HU	20 - 60	Female	I feel we should be encouraging small businesses into the area. Employing our young people through apprenticeships etc., bringing more money to the local economy - take away etc.
026/JAN15	TA5 2HP	20 - 60	Male	Yes, encourage more banking facilities (ATMS) and shop/post office facilities and mini supermarket shops
027/JAN15	TA5 2JR	Over 60		Good
028/JAN15	TA5 2JR	Over 60		Again I agree with all these suggestions, however, not if any businesses are so large that they encroach on green areas thus endangering flood possibilities
029/JAN15	TA5 2HW	Over 60		Encourage small business by all means but not in Cannington itself.
030/JAN15	TA5 2HB	Over 60	Female	I think the access to the village limits any business development. The A39 is frequently blocked, a burst water main cause chaos the other week with children attending Heygrove School not being able to get to school
031/JAN15	TA5 2LX	Over 60	Male	We are extremely well served by local businesses. What they need is ability for customers to park. Parking outside SPA/Post office is at times unacceptable. Parking on pavement and zig zag white lines need to be more agreeably policed. Small business could be encouraged on outskirts near existing premises e.g. by Greenslades or Yeo Valley. Do not allow development on Green Wedge between Chads Hill and by-pass.
032/JAN15	TA5	20 - 60	Male	Tincknells site would lend itself to small sized businesses. Potential for two employees per unit, therefore 24 more families supported financially.
033/JAN15		20 - 60		Small business encouragement would be a good idea.
035/JAN15		Over 60	Male	I think we are too close to Bridgwater to encourage very much interest. At the moment there are no possible sites for business.

036/JAN15	TA52LX	Over 60	Female	There must be parking for any new business.
037/JAN15	TA5	20 - 60	Female	I think these policies are sound. But not too many to change the character of the village.
038/JAN15	TA5 2HH	20 - 60	Male	Small business would be welcome as long as they recruit and blend into the village landscape. Recruit if possible within or around the village area.
039/JAN15	TA5 2HP	Over 60	Male	Agree with first two policies, oppose dirty/heavy industry e.g. Scrap yards.
040/JAN15	TA5 2RJ	Over 60	Male	Cannot see space within village centre to allow new businesses to open. Would therefore need to be on the outskirts. If developed on the outskirts it has the potential to damage existing businesses. Any growth in businesses would see an increase in both population and traffic, would our health centre, school and roads cope with this? Development of both residential and business is the beginning of the transition from village to town and the loss of our present status of friendly village to one of a faceless town.
041/JAN15	TA5 2LU	20 - 60	Male	Businesses should enhance the village itself not just benefit those who run the businesses. The plan should look at the impact of the business any associated infrastructure would have on all parties.
042/JAN15	TA5 2HB	Over 60		Encourage small businesses to the area i.e. Competition for Spar shop. By the side of new by-pass with parking/lay-by so people can stop without entering the village, as most people just speed through the village, I have watched it.
044/JAN15	TA5 2RH	Over 60	Male	Ok, but businesses need to show an interest in Cannington.
045/JAN15		Over 60	Female	Promote Cannington as a lovely place to visit with Visit Britain. Encourage a more diverse range of people (more creative, from professional backgrounds, wealthier, different cultures) to live in and visit Cannington. Perhaps artisan type skilled people. One person cell workshops and workplaces could be constructed in the land the other side of Rodway Hill, on the left inside the new bypass. Have it landscaped with trees planted, attractive and integrated with the village with footpaths as mentioned before. It is time to leave the industrial look behind. Ensure they have broadband, Another location could be Crockers Land, far better to have a few small business start ups to create jobs in the long term rather intense housing this this end of the village cannot sustain. Cannington Court (Clifford's Hall) EDF's European training centre next to the walled garden and bowling green will employ 40 people some very skilled on high incomes. This will impact on our village in a positive way attracting entrepreneurs and associated services. Once the pedestrian crossing is moved the High Street needs to be flexible in its planning. For example the village could do with the following: Deli, Farm Shop. Chemist, gift shop, wildlife tourist centre, Volunteers Hub, gym, spa, music club, swimming pool
