Community Survey

This survey was aimed at the community. A link to the survey was advertised on Cannington Neighbourhood Plan and Cannington Parish Council's websites. As well as being shared on Facebook.

104 surveys were completed. The results are shown below.

10. If you have a particular comment on the points above, feel free to add here:

- Above answers do take into consideration that Cannington is a small village
- Buses expensive and stop running early evening.
- Facilities for teens poor.
- I helped Scouts with the leaflet drop and a common theme from the kids I spoke to mentioned basketball, skate park and tennis facilities would be good.
- Difficult for me to comment with any accuracy, as I work in Cannington and do not use many of the facilities questioned above.
- I have also responded in the context of 'compared to other small towns/villages'
- Difficult to get an appointment wth Doctors for a couple of weeks in most cases.
- School education found primary unwelcoming on visit so now drive children to another village.
- Dogs should be kept out of the children's play areas. There's a big problem with dog MESS!!!!
- Feel that locals are being ignored by local mini mart, their prices have gone up by as much as 75% in some cases. Some locals have no transport, but contractors in area have pushed prices up!
- Few of the above apply to me but have tried to be honest in what I know.
- Given answers are in consideration that we are a small village & as such would not expect super facilities as in a large town.
- Health Centre should have thought twice about retiring a good & helpful GP
- More youth facilities needed bus service not bad during the day but after tea-time its non existent.
- My knowledge of schooling and youth in the village is hearsay only but I am aware that the primary school has a good report.
- New multi activity village hall/community centre required for all ages.
- No provision for those with mobility issues.
- Not enough green areas to enjoy, why is the playing field outside of the village which has limited use, would it not have been better to buy the field in behind lonsdale to make it into a usable area for all village people. Parish council does not listen or represent peoples views.
- Our convenience stores need better parking facilities. This will prevent illegal /dangerous parking when using these facilities.
- Parking poor, traffic awful, community spirit brilliant!
- Parks and play areas always seem to be occupied by older children and an unacceptable amount of dog mess also in lots of other areas parking where you like along main road by butchers and boy racers driving along like morons.
- Personally in light of the EDF takeover of everything I'm yet to be convinced the wishes and needs of the village are taken into account by those in office.
- Pre-school and schools are not applicable to me although I believe these services to be good in Cannington.
- Safety of the village and for villagers.
- The child's play ground needs to be more friendly for younger children '.. There isn't much for them there.
- The village has 4 pubs, of mixed standards, but of an evening few locals are to be found in them, mostly its HP contractors. This leaves a vacuum of social activity for anyone other than the elderly often the only organised events are PC meetings.....
- Webber bus cannot be relied upon to arrive on time. It would also help if there was a limited Sunday service if only in the Summer.
- Would be great if the park and other public areas had less dogs mess around. It really is becoming quite hazardous in the village. I think as a community we need to do more
- Would like to see more play areas for the children of Cannington.

Stop 5 completed e as who will e only way a ed them urney. bypass is to 4 bed nother 64 dy had one children k and number of do not use o drive off /es. t out of stree school

Not sure what is meant by motor vehicle less dominant question. Assume you meant that it will become less dominant.
 Parking anywhere in Cannington is a problem, especially at school times I can't even park near my home because of the volume of cars.
We need a decent cafe with suitable parking and takeaway.
 Fast food outlets cause noise, smells and rubbish problems not required in a village when there are alternatives within the public
houses.

surroundings.

- Cannington is a village and should be preserved for all who live there it does not have to become a car park as there are a lot of areas on the outskirts that can be adapted for housing etc.
- Centralise the playing field this then can bring people in to the village, we could host concerts and games we can improve the look of the village not just cover it in concrete by more housing.
- Cannington needs to keep it's village organisations. Do not allow Bridgwater College and EDF to take over everything. Their input has to be appreciated such as rebuilding Cannington Court without their money it would have fallen down. Try to integrate college facilities for village use at a sensible & keep new housing in keeping with the surroundings whether small or larger dwellings.
- Currently we have a very poor & ineffective Parish Council mainly thanks to a Chairman who doesn't even listen to his team, let alone the members of the Village.
- Development boundary is creating too many infill projects. Extend it up to the new bypass instead, will stop the village being squeezed from the inside, plus lots of land for social accommodation.
- Commercial development No real policy is allowing tincknells to expand on to agricultural land.
- Different generations have different needs, however, the ability to walk cycle, park & drive safely in the village applies to us all.
- With reference to your recent letter asking residents of High Street, Cannington to remove their cars on a weekly basis, I would like to point out the following problems and also ask for EDF Energy to consider a proposal to make your lives easier and that of the residents. Whilst I appreciate that you may have a wide load coming past my house, you do not appreciate that I am disabled and have nowhere else to put my vehicle, along with the majority of the residents in the top of the High Street. If it was that easy we would love to park our cars elsewhere, close to home and in a safe environment, as many have of the lorries going to and from Hinkley. I would like to propose that EDF Energy visit my house and that of my neighbours so I can show in person my proposals, which are to take away the slopes outside our houses, which are mainly grassed and prove difficult to cut, and provide a long parking bay in its place so that residents could park without the fear of their vehicles being damaged and providing a wider route for the lorries that need to get out to Hinkley. I also propose, that the field on the back of high St houses might be a an option as then drive way could be put in back of the gardens of which there is more than enough land to use and would in fact work more better I believe that this suggestion would benefit us both, and would seriously ask you to consider the proposal and to meet me so that I can show you in person. Also this would benefit the United reformed Church is we had parking at the back of our houses as then it would leave them much needed parking, when visiting the church as they have many Community event, and needed parking for short term where we needed parking full time so it would benefit of wider community .
- I do feel that a drive at the back would be better as then we are in with chance as we can then say it would free up parking for the church which then in a effect would then be helping more in the community. Well I have thought of that as well and as EDF would be paying that takes the money side away and it would value to all the house so hopefully as now a lot more new one have moved in there might be hope all ideas with EDF paying 1 there buy land from the farmer (if not , we all hopefully agree to loss a bit of our gardens) 2 they buy / see who owns the big of land near the pub 3 the end house could be used if the occupier agree and of causes some money given for convenient. 4 if they are two private house that would be willing to sell a bit of land (as in two houses with a wide area like mine and next doors) 5 driveways out the front of the houses.
- I am quite new to Cannington but find it a lovely place.
- Not to have Cannington turned into an extension of Bridgwater no more building lets keep our villages.
- On the whole I think this is a good village to live in.
- Parking near the Spar is a nightmare, I feel sorry for the residents. Dog walkers are covering Cannington in dog mess and not clearing it up. Its everywhere and

disgusting.

- Please disregard all housing answers I do not live here but there was no option to say that. I am the Headteacher at Brymore should anyone wish to discuss the answers as many were difficult because I am not fully aware of the issues residents face.
- Question *25 answer will probably become "Extremley Disatisfied" when HC is underway simply because County & Local Councils have allowed EDF to walk over them
- Re question *25. This is a current view which could change with the influx of EDF workers and their families.
- The biggest challenge to Cannington is the Hinkley development. The issues around it has not been thought through. For example, the new bypass has caused a big impact to the look of the village, Brymore and wildlife with very little benefit.
- Traffic and parking need to be sorted.
- What will you do with the results?
- You're putting people off moving here by moaning so much.
