

Hi

We need your thoughts on what Cannington should be like, now, and in ten to twenty years time. This will help us to devise a Neighbourhood Plan which people will have to take notice of if they want to change anything in the village.

Some things to think about when you are answering the questions-

What do you do to relax around the village, where you can go, what things you can do, what equipment there is?

What work there is now for you and in the future what you would like to do?

Whats shops there are, what they sell, what shops are missing?

Where you live, what is your house like, what about the are you live in, where you would like to live in the future?

What about the schools both in the village and the ones people in the village use?
